

# New Grief Resources & Bereavement Services section on [www.centracare.com](http://www.centracare.com)

CentraCare Health System has launched a new **Grief & Bereavement Services** section for patients, employees and the community on its Web site.

The Web section includes information on grief and bereavement services provided by numerous St. Cloud Hospital departments.

It offers support to those who are grieving and also provides information about how to help someone who has experienced a loss. Additional grief and bereavement resources also are listed.

The screenshot shows the St. Cloud Hospital website. At the top, there is a search bar and navigation tabs for Home, Hospitals, Clinics, and Specialty Centers. The main content area is titled "St. Cloud Hospital Grief & Bereavement Services". It features a photograph of a woman and a man. Below the photo, there is a breadcrumb trail: Home > Hospitals > St. Cloud Hospital > Hospital Services > Grief & Bereavement Services. The main text discusses the pain of loss and the normalcy of grief. A sidebar on the left lists various services like "Find a Doctor" and "A-Z Health Library". A sidebar on the right lists "Grief & Bereavement Services" with sub-links like "What is Grief?" and "Myths & Facts about Grief". At the bottom right, there is a logo for CaringBridge.org.

## Topics include:

- What is Grief?
- Myths & Facts about Grief
- Life after a Loss
- When to Seek Help
- Guide for Survivors
- Additional Grief Resources

Visit the Grief & Bereavement Services section at <http://www.centracare.com/hospitals/sch/services/grief/index.html> or go to [www.centracare.com](http://www.centracare.com), click on **Programs & Services** (in the navigation column on the left side of the page), and click on **Grief & Bereavement**.
